What is a Parent Café?

Parent Cafés are evenings of sharing and learning amongst parents. Parent Cafés are driven by the knowledge that parents can, must, and do tap into their wisdom and resources in order to strengthen their own families. Guided by trained Parent Hosts, parents gather in small groups and explore topics that really matter to them. Topic examples include, “Taking Care of Yourself,” “Being a Strong Parent,” and “Building Strong Relationships with your Children.” Parent Café is available to any parent or caregiver.

Strengthening Families Framework

Parent Café is developed from the Strengthening Families Framework. The Strengthening Families Framework is a research- and strength-based approach built upon the following:

- All families have strengths.
- All families need support.
- Protective factors provide all families what they need to ensure the strength of their families and wellness of their children.
- Interventions with families with young children creates lasting impact.

Protective Factors

Through meaningful conversations, parents are working to build six Protective Factors that benefit their families. These Protective Factors include: (1) Parental Resilience, (2) Social Connections, (3) Knowledge of Parenting & Child Development, (4) Concrete Support in Times of Need, (5) Social and Emotional Competence of Children, and (6) Nurturing and Attachment.

Why Come to Parent Cafés?

Parent Cafés provide parents with an opportunity to build connections to other parents, share ideas, and determine what they need for themselves and their children. Through the Parent Café process, parents move beyond isolation to give and receive the support they need to keep their families strong.

How Does it Work?

At the Parent Café, every parent participates in gathering and sharing the group’s wisdom. Together parents lead their own learning and growth, they gain confidence, recognize what they already know, and realize what supports they already have around them. With other parents, they devise ways to solve problems and resolve issues in their own families. And they build trusting relationships, social support, and connections with other parents.

“Strong families are not an accident. They take thought and intention and preparation and skill.” ~ Julie B. Beck
