A contract agency of:

Who We Are:

We are a Behavioral Healthcare Center serving residents in Defiance, Fulton, Henry & Williams Counties for over 65 years.

Our services are designed to help our clients cope & manage life's various difficulties.

We are here to meet the diverse needs of individuals in our community, and we strive to meet those needs by delivering services professionally, positively, and ethically. Our trained staff works together as a team to ensure the best client care.

Clinical Staff:

Psychiatrist/Certified Nurse Practitioners
Psychiatric Nurses
Master's Level Clinicians/Counselors/
Therapists/Social Workers
Licensed Chemical Dependency
Counselors
Case Managers

Fees and Payments:

We accept all insurance including Medicare and Medicaid, please make sure to bring your insurance card to each visit. If you do not have insurance, we may be able to work with you to reduce your fees. Please speak to our staff about the necessary paperwork and the information you will need to get assistance.

*Enhancing the
quality of life for
those we serve.*

Outpatient Therapy

Outpatient therapy consists of individual, marital, and family counseling for ages 3 and above. These services are provided through scheduled appointments with master's level clinicians that use evidence-based techniques and modalities. These clinicians are also trained in EMDR Therapy which has quick results for clients and is much easier for clients to process events.

Group Therapy

Our **Substance Use Program** uses Evidenced Based curriculum with master's Level Therapist providing group and individual treatment. This integrated group treats the entire person and helps the client start their journey in Recovery. The program has 6 components that all work together with treatment providers that work with substance use and mental health disorders together every day. These components include:

1. Four hours of group weekly (Substance Use Group & Seeking Safety)
2. Individual therapy using EMDR
3. Case Management
4. Medication Management
5. Drug Testing
6. Pro Social Activities

Our **Anger Management Group** uses a Cognitive Behavioral (evidenced Based) approach from SAMHSA. This 12-session group meets once per week. Clients then see a therapist individually to work on more personal issues causing Anger using EMDR and other evidenced base modalities.

Our **Teen Seeking Safety** is an evidence-based, present-focused counseling model to help Adolescents (age 13-17) attain safety from trauma and/or substance abuse.

Serving our communities for over 65 years.

Community Psychiatric Supportive Treatment

Case Management services for youth & adults living with severe mental or behavioral issues. The goal is for the individual to be able to remain independently functioning in the community. Case Managers are on-call 24 hours.

Psychiatry & Medication Management

We have experienced Psychiatrist & APRNs on staff to assist both youth & adult clients living with depression, anxiety, or severe & persistent mental illness. Psychiatric medication evaluation & management services are offered.

Supportive Services for Veterans Families

SSVF program provides eligible veterans with a range of supportive services including case management, assistance accessing VA and mainstream benefits, short-term temporary financial assistance and housing search/ placement assistance. The goal is to improve the housing stability of very low-income veteran families.

Clubhouse Service

The program is designed to support the client's desire & goal to remain active in the natural community environment. A supportive environment of staff & clients is created to provide clients with daily living skills, wellness activities & daily socialization opportunities.

Presentations & Community Awareness

We offer community presentations on topics related to mental health and substance use. Contact us if you are interested in a presenter coming to your organization.

We are actively involved in community events and coalitions to raise awareness about mental health, provide resources, and address community mental health needs.

Genoa Pharmacy - Onsite Pharmacy

MVGC has partnered with Genoa Pharmacy to provide convenient, same-location access to medications, reducing delays in starting treatment and improving medication adherence. The pharmacy team specializes in behavioral health and complex conditions, offering personalized support, medication management, and coordination with the treatment team. This integrated approach helps enhance client outcomes, reduce hospital readmissions, and streamline care delivery.
